### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows: This application is in condition for allowance except for the presence of claims 12-21 directed to a substrate non-elected without traverse. Accordingly, claims 12-21 have been cancelled.

### ***Allowable Subject Matter***

3. Claims 1, 2, 4-11 and 22-31 are allowed for the following reasons: The prior art fails to disclose or reasonably suggest that a non-radiation sensitive material placed on top of a radiation sensitive layer in an immersion lithography process is thick enough to reduce the effect of bubbles and particles on the quality of a patterned beam impinging on the radiation sensitive layer. Prior art teaches the use of thin protective layers that prevent bubbles and particles from attaching to the radiation sensitive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
